LEADERSHIP

Ours is a profession with responsibilities to our clients, as well as society at large. One of the most rewarding parts of my 40 years in practicing law has been working with our young lawyers and hoping to instill in them these values.

HERSCHEL E.
RICHARD, JR.

Mr. Richard is currently president of the firm, and in 2010, served as president of the Louisiana Bar Foundation.

EXPERIENCE

Since the Haynesville Shale, the Northwest Louisiana region has experienced a significant economic boom. With our firm's depth of experience, Cook Yancey has been well-positioned to service the needs of oil, gas, and pipeline companies, as well as those of landowners, across a wide variety of legal specialties.

J. WILLIAM
FLEMING

Mr. Fleming leads the firm's established and experienced oil, gas and pipeline practice.

SERVICE

I have appreciated the support of the firm in allowing me the flexibility to volunteer my time and skills. Common Ground Community, Inc., is a group of individuals dedicated to building community through compassionate outreach, genuine care, and acceptance. Our focus is on one low-income community where we provide a variety of community-building services, such as a weekly meal, a food pantry, and a clothing closet. Using my legal skills to help an underserved segment of the community has been a rewarding part of my career with Cook Yancey.

LISA CONLY
CRONIN

Ms. Cronin is Of Counsel for the firm and, as chief financial officer of Common Grounds Community, Inc., has been named a Community Gem for 2011 by the Community Foundation.

For generations, Cook Yancey's reputation for excellent client service has endured, and that tradition continues as we grow with a focus on the future.
